Rewiring the Brain from Academic to be Professional

Introduction to Basic Employment Act & Career Advancement

Entrepreneurship Mind Set at work, Should ACT or RESPONSIBLE like BOSS?

2 DAYS WORKSHOP MODULE

Module One | BRAIN ACTIVENESS | ever active brain

Naturally human brain will be functioning at different percentage at different time.

- Brain, Cognitive Skills And Universe Law
- Conscious and Proactive Graduate
- Normal Brain State and T7SR Brain State

Module Two | RESETTING CONSCIOUS | enable new execution

T7SR techniques will break the neurons pattern, thus allowing the individual to practical in imbibing (hands on) the policies at a highest level. Practical new neuron functioning area will allow neuron to register and execute new and higher objective and goals of individual as well corporate.

Module Three | FOCUS & CONCENTRATION | greater attention

In working environment, individual need to be focus on multiple task to fulfill the job requirement at all time. The question is how to be focus in each specific task with clarity in mind? Our practical techniques will engage mind, body and spirit coordination.

Module Four | NATURAL CREATIVE | right brain power

Learnable creativity is normally perceived to be drawing, communication, cooking and so on. Creative mind will produce safe and new action. The innate creativity is essential to increase unfolding within fraction of time during much resting time. Our techniques will unfold creativity each and every new moment.

Module Five | MEMORY POWER | increase in recalling ability effortlessly

Recalling ability always need to be improved for individual and all level of staffs, which will provide direct impact practically on any task execution efficiency. It will improve staff's performance at work by able to learn new technicality/syntax/languages/product knowledge faster with longer recalling ability. The increase in recalling ability also improve in integrating suitable solution for industry requirement quickly.

Module Six | SINGLE RHYTHM CYCLE | multitasking (enhance left & right brain power)

Usually most working environment requiring left brain orientation for task executions over the time, individual merely loses the right brain advantages such as critical thinking, attention to details and intuition power. Our techniques will promote quantum jump of both sides of brain performances which directly improves deliverable of corporate target in conscious.

Module Seven | ALPHA THINKING | relaxed mood with high alert

Silent is the greatest power, individual can be in relax mode while working actively, fast with efficient performance. All great invention in the world since time immemorial invented when they are just in relax mode. These techniques are totally forgotten, not known in lack within today's commercial and developing country and industrialize or technologist states. We the only training institute in the world provide the solution practically.
